SAMU - The French Emergency Medical Assistance Service

To call out a medical team for a medical emergency as well as to be referred to a round-the-clock health facility.

The SAMU is the coordinated service to call in case of any serious medical emergency. A qualified doctor is always available to determine the type of response that best fits your situation, specifically, whether you need an ambulance.

EMERGENCY POLICE NUMBER

To report a crime requiring an immediate police response.

This number puts you in contact with the appropriate emergency police services nearest you, whether that is the Police Nationale or the Gendarmerie Nationale. For non-urgent situations, make a note of the direct phone number for your nearest police station (commissariat de police or gendarmerie).

FIRE BRIGADE

The French fire brigade, les sapeurs-pompiers, is also available in cases of medical emergencies, such as traffic and domestic accidents. They work closely with the SAMU and employ professional, health, medical and volunteer brigades.
